# Port Credit

## Community Profile

### History

The Port Credit area was long established by native peoples until the arrival of the French who established a trading post at the mouth of the Credit River in the 1720s. As a result of allowing the Mississaugas, an Ojibwa group to trade on credit, the river came to be known as the Credit River. Following a period of French occupation, the British arrived and soon negotiated land treaties which enabled them to control the region. The Mississaugas land base continued to shrink over time and in 1826 the British government constructed a 30 house village for them near the fledgling community. The first organized planning occurred in 1834 when the village of Port Credit was surveyed and a town site laid out west of the Credit

River. The harbour was also improved and enlarged. Soon after, the Mississaugas were relocated to the New Credit Reserve near Brantford, Ontario.

The harbour development fuelled economic growth and commercial expansion for the village. Railway construction and a great fire in 1855 resulted in a period of decline for the harbour. Industrial and commercial expansion including the founding of the St. Lawrence Starch Company in 1889 signalled a rebirth and several decades of relative prosperity for the village. In the mid 1900s a Federal port was constructed from lake-fill at the mouth of the Credit River while to the north of

Lakeshore Road, a local landfill was capped and developed for municipal facilities including the Port Credit Arena (1959) and Library (1962).

The Town of Port Credit was incorporated as a town in 1961. In 1974 Port Credit was amalgamated into the City of Mississauga.

**Table 3 - Population by Ethnic Origin (Single Responses)**

**Ethnic origin** refers to the ethnic or cultural origins of a person's ancestors. An ancestor is someone from whom a person is descended and is usually more distant than a grandparent. It is not the same as place of birth, citizenship or nationality. People who responded to more than one category were counted as multiple responses.
